Loving Cousin I received yours and I think I did send word that I received the Bushes but am not certain but now of do and thank you and cousin John for your care and pains about them and am freely welling to pay for them and they do pretly well generally the smallest was well peeled but rather too small the biggest which I think was of cousin Johns gathering was not quite peeled enough I think lovend one of my family that most used about them to gather some (for they will not reel here and I find it will not be worth, while to take care of them) to see them well ordered, I have not received Scolley's yet and question whether ever I shall but I hear my patience hath some operation on his engenuity for I hear by the by that he is resolved if possible I shall be paid but I could be glad to see it for its very low with him according to your desire I have housed 30 of your money as I suppose Capt Nathaniel Gardner informed you as to the book of atheism take it in part of pay for the Rushes. I received your verbal letter by brother . Inain and I find you are in claringer of cooling for first you send me a pretty long letter and thon they grew shorter and now it is dwindled up to word of mouth therefore let us both indeavour to reform by that means Thope that we may do some what that iniquity may grow cold and the love of many may abound which is all at present from your kinsman Josiah Franklin

My letter is longer than yours notwithstanding I had forgot till now to remember love &c &c &c

Testemony against this Matichnitian Bratice of making flaves or men. Wherein it is thered to an time of the Josphe. grace and nater . By Elihu Coleman. Maty 12. Therefore all things we bouse Trinted in the Year 1733.

Before i Speake of the unlawfulness of this practice of making Howes it is in my mind to Sieve a Relation Low and after. what movies i came to und stand it so. and why and forwhat Reason & now speaks against it after & Rad arrived to the years of uman i was very deferes that i might come to know the Lord for my get for althe i did beleave inves Edicated or tought the wright way yet open feros ancideration i take to be Lat the Religion of a mans Edication was not the Religion of Is but of turn that Edicated line and therefore i war very before to know him for my left a formeas in scripture that roller Destruction came upor the City that if Daniel nout and lobe want in it they by there Righteougness could love none but there one loles. and allo i might live in the most of a Righteous people i Saw that is woold not will any thing to me. and as i was thus concerned it pleaded the Land in his one time to manifest him self to me in Some Small segree and melione. So that then i could defern things are from Sever and after i have considered of the principles of these my our that those that keen Close to them i do before that there Caneners my wepon the former that That prevail against them and as i Concidera Lescon i form anelegity tim my felt to Som with those people in multiple wave to good byst notwithstanding i must convert and for the relon is now write that as i new analytitis to soon with them in that which was soot to the fame necessily i now tind to Speak against that wich is will atthe it may be in some of them for the Lord made me Longoll in that Convincing day that he worte not aline of for atthe might be in Jacob and that transgrescion in Just Route not go with ed, and that he would yet again search serufeten as with Cancel and true to light the hider things of disorthy. and he atho Some may think it have to have this practice Spoken and that her ben cared on to long in Silence i may let back know seleveing it to be my duty so to to i have written according to the

understanding i have had thereof and altho i have writen but little and in a very plain way yet i hope that these Remine I have made therein may ferre as a tex for Some to preach to thenselves apon . I am not unthoughfull of the ferment or ston that such discorde as this may make among Some who like Genetrius of old may by by this Craft have we our with and so caused the people to cry out with one voice Jaying head is Diana of the Ephefians whome all afia and the world northing therefore leaving such to wellings what they will a will also Layon that there is meny Jober men that her Spoken against this practice boath of writing and in their publick afor the whome & Could name but thegeing to be brede i will only offerve tothe Reader what i my felf have observed and that is that those perfect that dive nevert the truth and are most ingaged in it and that are Refer cannot alow of this tice for they seing it to be operation and meetly . now having spoken somthing of the he son why where write this i will conclude this my preface withing the Reader on Important Judament.

against that antichristian Practice of making Slaves, Such her ben the love and goodness of god to men that in all ages of the world be has had a people famely or Church whome he has called and also Chofon to become testemony to his name and truth yet it may be observed by them that reade the holy Scriptuers. that these people whome he had called and fovered above all the famelies of the Earth and had wroght fines and wonders for them and had Exalted them in the fight of their Enemies that those people in times of liberties and Lage grew forgetfull of God. this aptness to forget god in a time of Ease the apostle paule well sen after that he had the thorn in the fleth or the megenger of Satan to buffet him as he calls it for before he was affected he went a stra therefore he new Mestisement or affection to be profutable for him and could then Law i take pleque in infirmities in repreaches innecepties in perfecutions in distressed for Christs Take for when i am weake then among I strong 11 form. 12. 10 it may be also observed. by then that Reade the Book of marters or suferings of the people of Sod from the time our Lord was Crucefied Jown to the Raine of the Bloodly Queen mary. (which history i do beleave is believed to be strue to by most of processants) that in all that tenth of time god had apeople whome he had called out of the noffip ways and cuftomes of the world who wave a futering people and that in the migst of their Seatest Suferings they ware the most amediate upheld by the divine power of God to that their could Even relieve the in the flames but when it pleased god that a good king on Emprer came to Rule so that they were not perfective or much oppressed that they Gren torgetfull of god and some of them became appressers them selves . now i so believe that god some times affecteth outwardly and some times inwardly who best knows the Rod that is most sutible to Chastile with. we may observe also how it has ben with our Elver frincs who wave a hamless and Sufering people who did not only Geave testemony in word but in practice also against all outward and carnial nepons

which our worthy friend Robert Bookly offerveing fail that it was their Enocent lives and converfacions that convinced him. before Ever he inspected into their princibles he did not, Se than then in this practice of making flower of their fellow reters which practice is upheld by the Carnil Sword only but he beare testemony against the use of the carnil sworde and would not alon of it to be used attho it wave in Selfpreservation. Such Enocency was in that worthey man as well as many others in that day that they would not alow of this practice haveing more regard to that Common of Christs to do to others as we would they should do to us then to Seorge fox had traveled in the island of Berbados in the westinges where he se this practice of making slaves Even to that degree that there houses ware black with them that he bare open tiftemone against it and when he got home he write a little Book to thein wherein i find these words. and if the roth an hebren or an hebren woman to told winter the and serve the six years then in the seventh yeare thou that Let him go free from the and when thou sendest him out free from the thou shalt not let him go away Entry thou shalt furnish him to bright gut of the flock and out of the floor and out of the wings reft of that correwith the Lord the 500 hath Bleffed the thou halt give it him and remember that those wast a bonoman in the Land of \$54 and the Lord they God redemed the therefore i Command the this thing to day . devt. 15. 12.13.14.15 see here this was to be done by the sens to such as wave of there own nation and people and indeed this will very well become. Christians mafters Governors and ruless of men famelies here in this ifeland or Elfrohave who should outstrip the lens to deal so (as the Lond Commanded) with their Servants and apprintices that wave of their own nation or people: and to Close up at Let me tell you it will doughtless be very acceptable to the Lord it to be that mayters of mufamelies

here would deal so with their servents the negroes and blacks whome they have bought with their more to let them go forte after a confiderable term of years if they have Served them faithfully and when they go and are made free tel them Not so away Emptyhanded this i Say will be very acceptable to the Service Jone him not Jufering us to go away Empty for who is their among you saith the Lord that will shit the Joors for nought nither to ye kindle a fier on my alter for nought males . 10 So now you that are christians that are redeemed out of the Spiriteral Egypt for as the apolle South 1 cor . y . 22 he that is caled in the Lord being afervent is the Lords free man that is set free from sin and spiritual bondage be ye holy as youre beavenly father is holy and be ye mercifull as your Revenly father is merciful as is commanded you in Luke 6.36. and this the way to have the loft Im go of god restored and renewed in us therefore ¿ Say you Spiritul Jens you must Exceed the outward Jens in this who are now come to christ was is a mercifull and faithful light prigt who i the facion of all men and who tatted death for all men. 208. 2.17 and let not your famelies of whites and blacks be like forom and gomorah like te Boim and tepher vim and the reft of the cities of the plain or like the Committee Left Judgen destruction Come upon you and the Lord root you and as he did them Let not i say your Servents under your command and Such as we form in your doufes and bread up in your families and Such as you have bought with mony sifer them not (& Fay) to take hilbands and wives at Moir plefure and then Leve them again whom they plefe and then take others again as fast and as suddenly as they will and then leve them this is not well this may bring the Sudgments of Sod upon you wa this manifests your families to be unclear and adulterated families

now by these words the but a small peart of what he write again it we may see that he was against making slaves of men. non i do beleve it men were but ingenus to acknowledg to the truth Even as their consciances beare them witness i need not go any froder for a proute against this practice but because they be not i will turn also to the holy scriptuers that so they that are in this practice may be condemn by bouth . first we may observe when god had breated man that he gave him a freewill and would not compel the will of man no not to that which was good much less to that which was Evile therefore we ought not to compel our feber creters. objection But had not sods people bond tervents in all ages of the work Gought with their many to which i answer that in the time of the Law they had bondfervents bought with their money but the apostle faith that the Servant abideth not in the house Ever now the word Servant is understand to be for a time but the word slave for Ever and those that marchandised in Slaves we may find ware babylow mar Cants heve . 18 . 13 and those that had bondervants under the Law ware commissaed to let thom go free after some time of service and they ware not to Let them go Empty handed nither which some of them not observeing the ford complained by the prophet Jevernian that they have not harkened unto me in proclaiming Liberty Every one to his brother and Every mun to his nighbour behold i proclaim a liber for you faith the Lord to the Sword to the postilence and to the famine and i will make you to be removed in to all the kingdoms of the Earth gere" . 34 . 17. objection but they were of their own nation that the Command was against now these negros are not of our one nation but are mere infidels and Strangers to which objection ile answer as it is written in exo 22. 21. 1 Chall nither vex a Stranger nor appr Rim for ye wave strangers in the land of Egypt. and allo Exo. 23. 9 Also thou Shalt not oppress a Stranger for ye know the hart of a Stranger Jeing ye ware Itrangers in the Land of Egyp

now i do not find that it is any more alovable to make a flave of an undever then a belever Seing we are commune nat oy 12 therefore all tings what over ye will that men though To to you to ye Even to to them for this is the law and the pro now we may se that this was not only as command of christ bit was the Law and the prophets also and those that comes to observe that Command Even fulfill boath tables at once. now i have often Considered how Erneftly Some men will search into the Etemology or original of some things that may be but small and in the mire while omit the Greater. now in my sudgment Every thing ought to be looked upon according to the importance weight or value of the thing for to be very Lelouf in a small thing and to pass lightly over a grater that Real may be properer called Superstition then good Leale which should be grounded apone knothedg . now i would have all to contider of this practice of making Slaves of negros or others that we care get the mafiny over to se upon what foundation it Stands or to se what was the original It it hohether or no pride and idelness not the first rice of it that they might go with while hands are that their wives might lexeble like paint and adorn themselves and their Sons and Jaughter be brought up in idelness which may very well be termed the mother of all vice for it is generly the richest fort of people that have then that could do best without them for the poore are not so able to get them. but some may object as i my self have heard them that there was a mark let upon Cain and they do belve that these negros are the posterity of ain because of their haire and of there being so black defering from all other and that canan was to be a fervant of Servants to his Brethen whome they take to be of the same Linage but if we do but offerve and reade in the genology of ain we may find that their wave all round in the old world and that canan was of the line of Jeth. and altho it was the will of god that the world was drounded

Occupe it their greate wickedness yet we may offere all that their was unclean beafts went into the ark as well as Clean and that it was the will or promision of god that their should be a harn as well as a shern and Japheth Fand altho canan was to be afervant of Servants to his brethen yet the Lord afterwards spake by the prophet that the Sone Should not beare the iniquity of the father nor the father should not bare the iniquely of the Some but the Soule that fined should die then the postority of canan on of Ram do not bean their fine and the apostle peter Faith now i preceve of attruth that God is no respecter of persons but in Every nation he that feareth god and worketh righteougness is accepted of him. pon altho the negros may not have the understanding that Some others nations have then i do believe their is the less requiered of them for whare much is given their is much requiered and if they do but as well as they know i do believe it is well with them. for John the divine faith in the revelations that he fan them that wave fealed in their forheads of the tribes of ifrael of Each tribe twelve thousand which made an hundred and forty and fore thousand and after this i belief (faid he) and to a greate multitude which no man buld number of all nations and kindreds and people and tongue stood before the throne and before the land clothed wante voles and palme in their hands and they cried with a lowe voice laying Salvation to our god while fetell upon the throne and unto the Lamb reveryogo 10 no it their was of all nations kindreds langues and people then. their was some of the negros o none altho the turks make flavo of those they can lech that are not of their religion yet as histry relates as foone as any Embraces the mehomatan religion their no longer kept slaves but are Quickly let free and for the more part put to some place of prefirment so Zeales are they for proceedets and their religion now it many among those talled Christians would but concider how for they the turks

in this particeler it would be wed for they till the negros that they must believe in christ and receive the christian faith and that they mist receive the facrement and be trapstifed and so they to but Hill they thep them Slaves frak all this . now how partial we those that care Judge a negre that should rank away from his mayter to deferve beating and it one caled a Christian [altho it may be no leter arition then the other ! Thould rane away from the twee they came Judge him to be a good fellow and to have Some well. now i look upon this practice of making slaves to be so great a Sin that Even men house principels will alone the of kiling men in their one defence will not alow then of making slaves for the monting it beter to deprive them, of life that rife up against them then to Seprice these of liberty that her done them no harm. now if any one should ask one of the negromasters that had a negro Will and a Mild of his one what have the one had done that it. Though be a flave any more there the other that they would not e believe be able to answer it and it they have some us no hurme as it is Everient they have not then it is very contrary to forighture and Even to nater to make them futtor. now if we will but look back to the original of this practice which ought to be mout looked into and Spoken against for write the Cause is removed a know not how the speet Thould Seare we shall find that they wave stolen in the first place Ether by them that fetcher them or they caring such goods as induced some of their one nation to Iteal them and they Standing redy to receive them which is as bad as I they had flolen them them Selves now we may find that man Stealing and man flayers were Jana together and their was the same purishment for the one as the other se exo. 21. 12. 13. 14. 15. 16 and he that Smiteth amon so that he die flich be surely to put to death. and he that Stealeth a man and seleth dem or if de be found in his hunds he shall swelly be pict to

we may find it also in the new testement as before some with the worst of murders as Juch as ware murderess of father and murderers of mothers and monstealers . 1 tim 1.9.10 the probe betien is generial he that Stealeth any man a brother or a Stranger or bethen or any man the punishment is capitail of The that killed amon was to be put to Seath because man was made in the Image of god gave g . 6 To be that robeth a man of his fredom which only maketh knowledg afeful Jemes to deface the Image of god and therefore is purified with death. objection but hom came this practice of making slaves be to great fin when it is so general a practice among at the societies of people for Let them difer aboute what they will elfe they prite generally agree aboute this. to which objection i arriver that if they did but as well agree aboute all other pints is they do aboute this they might almouft of not altogether be termed one Community. yet i canot find this to be a proufe for i take it for a maxim that in a general way the negros are cruelly uged and therefore i do not find that their agreement in making flaves Care be an Example for us any more then their useing them Cruelly cane be an Exemple for us therefore if we will but confider the thing wrightly we Had not find that is so a proufe because it is so general a practice. for we may observe how it was when our Lord was crucified that there was siver seex of people and of very difering minds yet in puting him to South they outo generally agree and the they wave so much at varance that is the provers is they were at Jagers drawing yet the tex hes it that the Same Tay pilate and Herod ware made friends, yet some that hes annotated thereon has not crupiled to call that a curfed fringlip that was contracted by futing to death our Lord that came in Love to their Jols.

But i have a further reply to make to what i have fait before of the general agreement of making flaves Marily that there is some of all personations is do believe that canon alon of this practice for they feing it to be Contrary to Christo Commande and Even to nate for i have made this offervation my felf the fit your in years that those that Iwell nerest the truth and contend most for it canot alow of this practice for they seeing it to be oprifcion and (ruetty. but it may be objected that there has Some Spoken against this practice and they have come to nothing or hour not prospered in it . to which i answer that a good cause may be Badly managed and by Jad Experiese we often fee it is so.
now i do believe by what hes alredy bere faid that all that
have not concluded before kurd that they would not fee may he this practice of making theres to be an antichriptian practice for it canot be of christ because contrary to his command therefore of antichrift. now i have heard Forme men say that they believe they die wrong in giting negres but they die not know what to So with them now they hav got them for if they Let them go free Ater some time if any mighes befell them there Estates ware abliged to maintain them . and the they seeme to acknow the wrong done to then yet they seme to be very much afraid teast they should be forft to help them a little and so Jelme to rest contented. now Jopofe that to give the negros there times or let them go free here in this country was arong which i do not believe would be wrong after they has served them some time but if it wave wrong to let them go free whither or no these that se they did rives in giting them ought not to beare a teltemony against it for their keeping them and being silent incoreges others to get them. for enthances the apolte pavle advice to the believers not to Joyne in marage a believer with an unblever for he Counting

it wrong Even to do i but if a believer had got a wife that was an unblever i do not think that he should put her away yet notwithstanding the practice was wrong and ought to Be Spoken against . now i care truly say that this practice of making flaves of men apears to be to great an will to me that for all the riches and glory of this world i would not be with of so great a sin as this seems to be and i do believe that many would be it so two wave they not blinded by fettentrest. now as i fact in the beginning how apt men wave to forget goo in a time of Liberty as we now some to have which it wright Confidered we ought the more to remember him and to prife his favoure theirin for i to believe that if perfecution was on foot again and people were haled to prifons as they have bene in times past that many would have more regard to there one practices then now they have for this practice of making flaves tinds to many Eviels as parting man and wife and children from them boath and thereby Causeing them to commit adultry with others and to their Children. canot come to bonour them and all this is Some by violence which is forbiden in the scriptuers for these we are commanded to do violence to no man and lattly it is hindrence of the Spreading of the goffet among those poor creture for which our lord came and laid down his lefe for as well as others and also het Said that his gospel thouse be preached unto all nations. But some may object as i have heard them that by this meens they come to here the gofpel preached and they believe that was the way that our Lord intended that nation Thould have the gospel preached to them to be brought slaves here. to which ite Jay the reder may Quickly Topole what people these are for it must be them that bye the gosphe prity dear them felves or Elf they could not think that the negres should

be bond slaves and their children after them for the knowled of the gospie but i do not find that the gospie was ithen bought or Jold for money nilber do we find that Ever god Compeled any to receive it gother but only Entreated them or advised them to chuse life and live. now by this proutice they hat the name of a Christian for all they can get I [Say they T they make Slaves and Even nater it felt tels them that is wrong . now i would have all seroughly to confiden that loves there one fouls and dofe believe that they must give anacount for the Deeds done in the body to look into their one practices to see upon what foundation they stand for god will not forgive what is in our power to help now i haveing Thorin by scripture the unlawfulness of this practice as it is now in we both in the old testement and in the new. and new i would have all turne their minds Enviard to that Levine moneter or counseler placed in the hart of man which is as agreable to the holy scriptures i do beleve as any Eternal thing care to to an Externil one to which ite leave my reder Even to that Ever blefed Spirit one with the father nantucket the
